

College of Science Faculty Mentor Agreement Form

The following form is to give faculty mentors an opportunity to identify the primary students and projects they would like to be funded through one of the College of Science's paid research programs, SURE or LURE. To adequately distribute funds across departments and teams, faculty will only be permitted to nominate 3 students from their research group per cycle (e.g., 3 maximum students during the summer and 3 students during the academic year).

The goal of these paid research programs is to increase the engagement of undergraduate students in research by providing funding and opportunities to further their success.

Student Name: _____

Faculty Name: _____

Faculty Department: _____

Cycle (Summer -20xx or Academic Year 20xx-20xx): _____

I certify that I have read this student's project description and believe this to be a beneficial and achievable project for the program cycle selected. I would like to nominate this student as one of the nominees from my research group.

If this nominee is selected I agree to work with the student to establish expectations, approve student time sheets, mentor this student's research project, and be available for student questions.
